About *Shape of Colors*,

As a team, we are passionate advocates of Polish craftsmanship, promoting traditional techniques and high-quality handmade work in all of our products. Driven by a love for beautiful forms, we design and create unique, handcrafted ceramic and glass vases in Poland. Each vase is made to showcase floral arrangements and add charm to any space. The core idea behind our products is to inspire through either color or shape. With a commitment to sustainability, we use traditional methods and locally sourced materials to create vases that are both beautiful and responsibly made. Slight differences in shape make every product unique, a hallmark of craftsmanship and nature. Just like you won't find two identical apples or flowers, you won't find two identical vases from SOC.

Ceramics

Our vases are designed to spark your imagination through their carefully crafted shapes. As photos cannot fully capture their essence, the true artistry becomes evident when you hold them, feeling the craftsmanship in their solid, weighty presence. The heft alone speaks to their handmade quality. Every detail reflects the dedication and skill poured into each vase, inviting you to appreciate the artistry with every touch, showcasing the time, care, and passion invested in its creation.

Glass

We come from a region in Poland renowned for its rich tradition of handmade glassmaking, where we embrace the demanding yet rewarding process of crafting glass. The result is our vibrant, colorful creations designed to bring joy and life into any space. We are constantly expanding our palette of colors and forms, carefully curating each piece to add beauty and energy to interiors. Our glass is hand-blown by skilled craftswomen, guided by expert glass technologists, and each vase features a unique shape and striking color, reflecting the artistry, precision, and dedication we put into every creation.

Meet the *founders*

Hi, I'm Klaudia, passionate about ceramics, especially raw, unrefined forms. I find joy in the creative process, always seeking that natural, unique aesthetic in everything we create. Vases are my favorite, as I love arranging flowers and always think about how each vase will enhance them. All the floral arrangements in our collection are my own, reflecting my love for harmonizing form with nature.

Hi, I'm Anna. What fascinates me most about glass is its ever-changing, unpredictable nature—it feels almost alive, and every piece turns out uniquely. The subtle imperfections that emerge only add to its beauty and inspire me with each new project. The colorful aspect of our brand is definitely my thing, I've always been captivated by colors and could talk about them endlessly. But if I had to choose one favorite, it would always be cobalt blue. My eternal love.

Our Mission

Follow joy—it's simple and within reach. We believe that small moments of happiness are easy to find, and everyone can create them daily. Our goal is to bring you a touch of that joy through our vases. We hope that the arrangements you create, along with the process itself, will fill your days with those simple, joyful moments. So, go ahead—embrace your creativity, enjoy the charm, and discover joy in our creations every day.
