About us

Shape of Colors is part of the Karol Meble holding group. Our manufacturing facility is located in Bralin, Poland, specializing in both case furniture and upholstered furniture.

With a total production area of 20,000 m² and a skilled team of approximately 160 employees, we offer flexibility in fulfilling both large-scale orders and small production runs, including custom prototypes.

We offer flexibility in manufacturing, regularly producing prototypes for clients launching new collections, and we can accommodate short production runs starting from just 20 units per model. Up to five projects can be managed simultaneously, and we have the ability to increase capacity—by 20–30% for beds and with significant reserves for boxed furniture. We hold FSC and EN 747 certifications, and our in-house quality controllers monitor all stages of production. With efficient workflows, we offer fast delivery: boxed furniture is available within 24 hours from stock, and upholstered beds have a lead time of 2–3 weeks.
